

## **A broad range of facility services for a broad range of clients**

### **Klüh – the multi-service provider for customised infrastructural services**

Klüh Service Management GmbH is an international multi-services provider. The third-generation family business run by sole owner Josef Klüh was founded in Düsseldorf in 1911 and still has its headquarters there today. Our Cleaning, Catering, Clinic Service, Security, Personal Service, Airport Service and Integrated Services divisions offer both individual services and multi-service concepts. The client base includes clients in various sectors such as healthcare, finance, aviation, the public sector, retail and industry.

As each sector has its own individual requirements, the company has been developing customised solutions for decades. Working in teams and in intensive dialogue with the clients, competent employees with many years of experience design integrated solutions that are highly cost-effective and efficient. Interfaces are used and work processes harmonised in such a way to produce economically attractive synergy effects that lead to clear quality improvements.

To be as close to the client as possible, Klüh Service Management has a nationwide network of 28 branches in Germany alone, which is being continuously expanded. The company is represented in six other countries worldwide, including China, Turkey, the United Arab Emirates, the Netherlands, Poland and India.
