

PRESS RELEASE

New location in Rostock

Klüh continues to expand

Düsseldorf, 17 May 2017. – Following the latest opening of the branch in Hanover, Klüh Multiservices, which currently has 30 branches throughout Germany, is continuing to expand its area: the Düsseldorf-based family business is now opening a new location in Rostock.

The regional office supplements the presence of the multiservice provider for infrastructure services in the east of the country, where Klüh is currently represented in Berlin, Halle and Dresden.

The establishment of the new regional office takes account of the positive business development in the wider area of the Hanseatic city. In April 2017, Klüh received a management order from the Institut Lernen und Leben e.V. (ILL), a non-profit organisation responsible for what will soon be 60 nurseries, playschools, day-care centres, multigenerational houses and general educational schools throughout the whole of Mecklenburg-Western Pomerania. Furthermore, with the Fachschule für Pädagogik und Sozialwesen (college of paedagogy and social affairs) in Bentwisch, the ILL is also active in the vocational education sector. Klüh is responsible for the cleaning and housekeeping in the facilities of the ILL.

"We want to clearly show our colours in the region", says Reiner Worbs, Holding Managing Director of Klüh, who reckons with dynamic further development in Mecklenburg-Western Pomerania. Worbs: "For the current year, we expect to see good growth and the corresponding creation of numerous jobs."

About Klüh:

Klüh Service Management GmbH is a global multi-service provider. Founded in 1911, the company has decades of experience in the area of infrastructural services and offers service packages with a high level of vertical integration. Alongside cleaning, its fields of activity cover hospital services, catering, building management, security and personnel services and airport services. With around 49,000 employees across eight nations, the company achieves sales of over 770 million Euro (2016).
