

PRESS RELEASE

Typing of the employees at the location Frankfurt

Klüh launches action against leukaemia

Düsseldorf, 14 June 2017 – Every 15 minutes someone in Germany receives the devastating diagnosis of blood cancer. Many of the patients are children and adolescents whose only chance of survival is a stem cell donor. But: every fifth leukaemia patient does not find a donor and is sentenced to death.

In cooperation with DKMS gemeinnützige GmbH, the Düsseldorf-based family business Klüh Service Management GmbH has now initiated a company typing scheme for the employees of the Frankfurt region. All the employees were thoroughly informed in advance about the criteria and extent of a bone marrow donation. On Tuesday 13 June 2017, several dozen employees of the company were registered with DKMS in the Frankfurt branch.

We will continue the action this year with further branches. Naturally, all our employees receive the day off, and we pay for the costs of the registration. The typing of our employees at DKMS is a further measure with which we, as a successful company, wish to fulfil our social responsibility.", says Reiner Worbs, Holding Managing Director of Klüh.

The multi-service provider, which employs more than 2,000 people in the Frankfurt area, is one of the leading service providers for infrastructure services in the banking metropolis. The customers in the region include numerous banks, Germany's biggest commercial airport and the city's university hospital.

About Klüh:

Klüh Service Management GmbH is a global multi-service provider. Founded in 1911, the company has decades of experience in the area of infrastructural services and offers service packages with a high level of vertical integration. Alongside cleaning, its fields of activity cover hospital services, catering, building management, security and personnel services and airport services. With around 49,000 employees across eight nations, the company achieves sales of over 770 million Euro (2016).
