

PRESS RELEASE

Cinematic cleaning performance on production site

Klüh cleans at WDR in Cologne

Düsseldorf, 26 February 2021 – Showtime for the cleaning performance of Klüh Cleaning. At the large production site of Westdeutscher Rundfunk in Cologne-Bocklemünd and at the ARD ZDF Deutschlandradio Beitragsservice, dedicated cleaning specialists from the multi-service provider Klüh will be providing maintenance cleaning, basic and special cleaning and waste transport from March 2021. The company will also be deploying day staff. Klüh was able to hold its own against the competition in an EU-wide tender.

High qualitative demands are placed on the appearance of the site, which is also home to many studios and numerous outdoor sets. Just right for the cleaning expertise of Klüh. A multitude of indoor surfaces are cleaned daily, including canteen buildings and offices. The site in Cologne-Bocklemünd also includes the television studios of Kölner Treff, Quarks, Tiere suchen ein Zuhause, Einfach und köstlich – Kochen mit Björn Freitag, among others. The famous “Lindenstraße” was also filmed here for decades.

Based on the number of employees, Klüh and Germany’s largest media company had already hit it off in 2018. Back then, also following an EU-wide tender, WDR in Düsseldorf commissioned the catering division of the multiservice provider with catering for staff and visitors. Christian Wilms, Managing Director of Klüh Cleaning: “We are delighted that we have been able to convince WDR in Cologne with an individual cleaning concept and our optimal cost-benefit ratio”

About Klüh:

Klüh Service Management GmbH is a global multi-service provider. Founded in 1911, the company has decades of experience in the area of infrastructural services. The departments Cleaning, Catering, Clinic Service, Security, Personnel Service, Airport Service and Integrated Services offer both individual services as well as multiservice concepts. With more than 52,000 employees in eight nations, the company achieves sales of around 852 million Euros (2019).
