

## PRESS RELEASE

### Major airport contract extended by five years

## Mitteldeutsche Flughafen AG continues long-standing partnership with Klüh Security

Düsseldorf, 24.01.2023 – Mitteldeutsche Flughafen AG, a customer of Klüh since 2003, has extended its existing cooperation with the security division of the Düsseldorf-based family enterprise by a further five years starting on 1 January 2023. The contract includes comprehensive security services at Dresden and Leipzig/Halle Airports.

“We are very proud to have had the opportunity to support Mitteldeutsche Flughafen AG for so long. This shows that our strategy of offering customers flexible, precisely tailored solutions based on our sound expertise and many years of experience is proving successful”, explains Axel Hartmann, Managing Director of Klüh Security.

The wide-ranging remit of the approximately 250 security personnel includes access control, patrol and intervention services, terminal supervision as well as aviation security and cargo control. At Dresden Airport, we also provide additional services such as parking supervision and luggage trolley service. When it comes to technical support, Klüh Security relies on X-ray scanners to screen hand luggage, gate probes for security checks and a guard control system to keep a constant eye on all areas to be secured by all teams. A fleet of cars for patrolling completes the technical equipment.

Klüh has been an experienced and competent partner for airports, airlines and handling companies in Germany and internationally for over 40 years. The core competencies comprise networked services which, alongside security, also include aircraft interior cleaning, on-board equipment, ramp and hangar operations, maintenance tasks, terminal cleaning, wheelchair services and assistance for people with restricted mobility.
